In Cooperation with Strategic Collaborative Stakeholders**

**ANNOUNCING**

## **The State of the Beaver 2023**

**Mark the Date**

**November 13, 14 and 15**

**Cow Creek Indian's, Seven Feathers Convention Center  
Canyonville, Oregon**

### **Theme: The Path Forward**

The focus of the 2023 conference will be on the future of beavers across the northern hemisphere and the best management strategies for both human and beaver.

### **Subtitle: Winds of Change**

At no time in history has the plight of the beaver been so illuminated, authors, film makers and the media have shone the international spotlight upon an unlikely hero, the humble hardworking champion of our aquatic ecosystems. Across the Northern Hemisphere beaver ecology is one of the fastest growing fields in restoration ecology, this event highlights the actions of all whom work in this arena. From restoration, research, relocation and advocacy, all aspects of beaver ecology are addressed .

### **The State of the Beaver**

conferences provide an international venue for academia, agency and stakeholder to gather and disseminate information pertinent to beaver ecology. These events continue to lead the way in forming partnerships at both local and global scale. This is a must attend event for academia, expert and enthusiast alike.
