

BEAVER PONDS SATURATE SOIL AND PLANTS, MAKING THEM MORE RESISTANT TO FIRE.

CLIMATE SUPERHEROES

THE WEIGHT OF THE POND BEHIND DAMS FORCES WATER FROM UNDERGROUND, COOLING FISH.

BEAVER PONDS ALLOW WATER TO SOAK IN AND SLOW DOWN. SPEED BUMPS SLOW FLOODING.

BEAVER PONDS ARE SAFE PLACES FOR WILDLIFE TO TAKE REFUGE DURING FIRES.

PLANTS AROUND BEAVER PONDS ARE MORE RESILIENT AND REBOUND MORE QUICKLY.

BEAVER PONDS STORE WATER ABOVE AND BELOW GROUND EVEN DURING DROUGHT.

Start at Booth #1 and visit all booths with a beaver icon to collect stickers.
